Brief Overview

Existing School Management Portals

Do not allow students to upload their assignments

Students Cannot see their grades, assignments and notes in one place

Most portals are not mobile friendly

Students do not get immediate updates when important changes are made

✓ ✗
Problem

Our Strategy

- Students can see a list of grades/assignments due
 - Email alerts for reminders & updates to assignment
 - List of all teachers
 - Teachers profile page
 - if due date is delayed student cannot upload assignments
-
- Teachers can add/update new assignments
 - List of all students
 - Recieve Assignments
 - Different courses will have different classes and different teachers
 - Grading system that creates total percentage
 - if due date is delayed teacher is notified

Plan

If our project goes well in time we plan on implementing the following features:

1. Chat System
2. Calendar System

Student Grading System

✓ ✗
12 weeks

Plan

For long term we can extend this software into an all round school management application that covers different aspects of student & teacher services for the education sector.
